

## CREATING LEADERS FOR THE FUTURE

### Looking forward to see you soon!

After nearly 2 years, that adventure that began in September 2015, is entering a new phase: the completion of the international consortium created to develop tools that promote entrepreneurship among people with disabilities, and the publication of 2 Guides with detailed resources and methodologies at disposal of any public or private entity interested in training entrepreneurs.

### A summer full of activities...

#### Last transnational meeting on 4th and 5th of July.

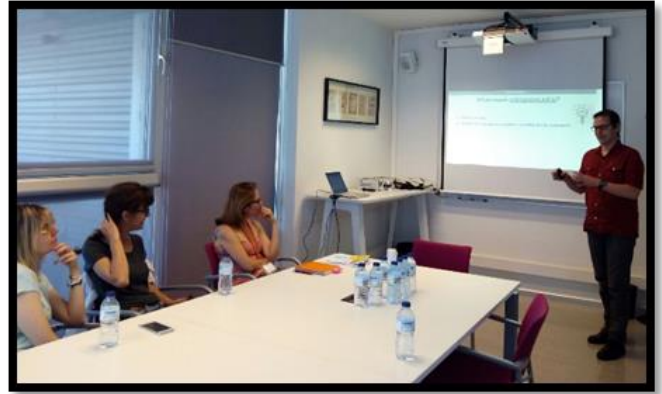

The partners of the 4 participating countries (France, Italy, Poland and Spain) met in Barcelona (Prevent

Headquarters) with the aim of validating, sharing and discussing the obtained results, as well as to define the best dissemination strategy in order to reach the maximum possible number of stakeholders thus promoting the greatest possible impact of the work developed throughout this time.

We also took the opportunity to get to know a leading initiative that combines entrepreneurship, university, R & D & I: the UAB Research Park (Universitat Autònoma de Barcelona) - UAB Research Park (for more information: <https://goo.gl/uxMn6K>).

In its portfolio of startups, they have some initiatives developed by and for people with disabilities: one of these is Mass Factory (for more information: <https://goo.gl/Rk5sR5>), a company that develops applications for urban mobility and accessibility.

### **Public presentation act (s) of the Entrepreneurship Training Guides.**

On Friday, July 7<sup>th</sup> in the morning, Prevent Foundation held a public presentation of the Guides developed in the Framework of the Project:

- ✓ **Guide of contents and methodology for an inclusive training in entrepreneurship for people with disability.**
- ✓ **Guide to inclusive activities to support entrepreneurship training for people with disabilities.**

The event was held at the “Center for the Entrepreneurship Initiative” at the Barcelona Activa headquarters (a local reference entity for local development through the promotion of employment, entrepreneurship and support to the company).

To give added value to the published material, in addition to the presentation of the Guides by Prevent Foundation, during the course of the event, Dr. Gay de Liébana also spoke about Spanish and European economic situation, as a renowned economist and jurist, explaining with a simple but clear language the current and future socio-economic situation of Spain and Europe, as well as about the environment in which entrepreneurs will move in the coming years.

The other partners from the project will be carrying out actions of presentation of the Guides in coming dates.

## **Publication of the Guide on Entrepreneurship Training.**

All those interested in having a look at the guides, can already consult them in digital format within the framework of the Project Creating Leaders for the Future: no limits to entrepreneurship and Disability:

- ✓ Guide for training methodology and materials for entrepreneurship (<https://goo.gl/AL8VPf>)
- ✓ Guide to work systems and accompaniment activities (<https://goo.gl/5SAn59>)

They will also be ready available on the websites of the partner entities: Fundación Prevent, Consorzio IOS, Fundacja Aktywizacja and Mine de Talents will as well send soon an institutional email to all the collaborators, partners, stakeholders informing about the availability of these tools.

## **Just a balance...**

The Creating Leaders Team is saying bye-bye to you all through this last newsletter...but, as we usually say, this is not a real farewell, it's just the way for us to make a balance of all the work done and start working soon again on entrepreneurship and disability.

So, you will always find us to help you and solve any doubt on the work done, to support any of your initiatives to foster entrepreneurship in people with disability. Our aim is and will always be to work for Equal Opportunities and, as long as you share this with us, we will be ready to walk the way together with you!

## **See you very soon!**
