

## Creating Leaders for the Future

### European Training Project in entrepreneurship for people with disability

#### THE PROJECT'S OBJECTIVES

To analyze and share the best european practices, in order to increase the transfer of learning experiencies and expertise.

To boost strategic collaboration at local scale.

To experiment new training and support formulas in entrepreneurship among people with disability.

To spread information about the social task of the different project stakeholders.

#### THE PROJECT BASICS

Despite different existing mechanisms for promoting entrepreneurship and training of people with disabilities, this group of population is still at a disadvantage if compared to people without disabilities.

The "ERASMUS +: Creating Leaders for the Future" programme promotes access to professionalized training in entrepreneurship, based on the methodology of skills development in people. It also offers:

- The opportunity to access high-quality contents
- Promotion of an "entrepreneurial culture" and social entrepreneurship
- High quality in the projects developed under its methodology

Its contents and methodology are built on the basis of the exchange of good practices and the analysis of existing needs among the involved European partners.

#### A EUROPEAN PROJECT

"Creating Leaders" is based on the European cooperation of 4 countries, as a powerful tool of intervention for people with disabilities: Spain, France, Italy and Poland.

Each country is committed to mobilizing local and national partners, establishing their participation, their contribution in contents and their role in the project.

At the end of the project, more than 300 participants will have taken part in the different planned phases.

#### ARE YOU INTERESTED IN THE PROJECT?

*If you are a person with disability, share with us your experience or your needs, by answering the questionnaire available here :*

## EUROPEAN PARTNERS

## PROJECT PHASES

The project is going to be carried out from 2015 to 2017. It is divided into 5 phases:

1. Collection of quantitative and qualitative information from the main stakeholders
2. Mobilization of impact agents and collaborators
3. Exchange and analysis of good practices
4. Execution of the planned activities (contents preparation, tools, methodology and communications), implementation and evaluation (direct and indirect impact)
5. Dissemination and sustainability of the project

## COMMUNICATION AND DISSEMINATION

- By the following means: website, newsletters, brochures, social networks.

- In events: international, national and local seminars organized by each partner and in collaboration with other agents.
